

Preface

Language is culture. The two cannot be taught or learned apart from one another. The best way to learn a language is to travel to a country where the target language is spoken and experience the culture. As this is not always possible, learning from interesting content is the next best thing. *American Vibes* is our answer to those who are interested in learning English through American culture. This textbook is meant to take you on a journey where you will learn, not only the language and history, but what lies in the hearts and minds of Americans.

It is impossible to capture how Americans think about any one topic. It is a diverse country with passionate people who love to share their opinions. We interviewed over 70 people from age 15 to 100, so learners can get a true picture of how Americans think and feel about a variety of issues. As a teacher, it was important for me to find real people using natural language to discuss things that they truly care about. It is also important that, because this book is video-based, you can see the non-verbal ways people communicate. This is a feature rarely found in textbooks today.

As for traveling around and finding interesting cultural and historical things to present; there is no better job. I was able to combine two things I care deeply about. The first is teaching English to Japanese students — something I have done for the last 25 years. Next is trying to present the fascinating country, where I was born and raised, as a fun and interesting topic of study. The result was a true combination of depth and humor that I hope the students will find as captivating as I did.

Our journey was intense: two years, 20,000 kilometers, 11 different states or districts, and over 60 on-location reports capturing the images of America and the thoughts of those people. Looking back, it was the best job in the world. What could be better than meeting new people and learning new things every day? It was an absolute pleasure and I hope that feeling comes through when you use this book on your journey of English learning.

Hollywood: Upstaging New Jersey

Hollywood is the movie capital of the world. But this wasn't always the case. In fact, a series of events combined to make that happen. If any of the key moments in history
 5 did not occur, people may never have heard of Hollywood and the famous song might have been "Hooray for Fort Lee, New Jersey!"

The Globe Theatre in Hollywood

The small town of Fort Lee, across the river from New York City, had good reasons to be the first movie capital. The first was Thomas Edison, the inventor
 10 of motion picture equipment. His laboratory was nearby. Another reason was that talented Broadway actors were close by and could star in the new silent movies. A third reason was that Fort Lee had the Hudson River and a rock formation called the Palisades, which were perfect scenery for the movies. During its most productive time, 1908-1917, Fort Lee was home to seven major studios and made
 15 over 900 films. Universal Studios started in Fort Lee.

Despite these advantages, things were not perfect. First, Edison wanted to completely control the movie industry. Second, coal was rationed during WWI, and it became increasingly difficult to heat movie studios. To get around this, the studios moved 2,700 miles away to far away Hollywood, California.

20 Hollywood had near perfect weather and did not require any heating like places on the East Coast. At that time in Hollywood, land prices were cheap, and it had desert, ocean, and mountains with snow not too far away. Movie producers could make movies that looked like virtually anywhere in the world. By the 1920s, Hollywood was the fifth largest industry in the nation.

25 All of this may never have happened if Edison had been more flexible or if war had not come when it did. It is up for debate whether the magic of Hollywood would have been as strong had the studios never moved westward.

**多様なルーツを持つ「アメリカ人」の街**

現在のロサンゼルスのある地域には、約1万年前から人類が暮らし、紀元前8000年頃からはネイティブ・アメリカンの部族が定住を始めたと言われています。1769年には、15世紀後半の新大陸発見以降植民地を拡大していたスペインがカリフォルニアを併合。

その後、同様にスペインの植民地であったメキシコが1821年に独立戦争に勝利したことで、カリフォルニアはメキシコ領となりました。1848年にはメキシコがアメリカ・メキシコ戦争（米墨戦争）で敗北したため、カリフォルニアはアメリカの領土となり、現在に至ります。

カリフォルニア州内でも、特にロサンゼルスは多種多様な民族や人種で構成されています。ヨーロッパ系に加え、ヒスパニック系は全米最大規模で、中東系、アジア系、アフリカ系、そしてネイティブ・アメリカンも多数居住しています。映像でSergioが話しているように、ロサンゼルスは、それぞれ独自のスタイルを持つ小さな村が集まった都市と言えるのです。

ロサンゼルスは日本人とも関わりの深い街です。19世紀末、ロサンゼルス在住の日本人漁師による日本食店の開業が、リトルトーキョー発祥のきっかけとなりました。リトルトーキョーは、一時は30,000人を超えるほどの規模になりましたが、第二次世界大戦中、多くの日系人が強制収容所に入れられ、一時は消滅しました。戦後は再生し、映像で紹介されていたように様々な飲食店やイベントによって賑わいを取り戻しています。1992年に開館した全米日系人博物館では、戦前の日系人の生活の様子や強制収容所時代の遺物が展示され、彼らの歩みを後世に伝えています。

Listening Highlight

ロサンゼルスのあるカリフォルニア州の英語は、アメリカ国内では標準語とされており、日本人でも比較的聞き取りやすいと言われています。映像に登場した2人の若い女性の話した方は、イントネーションに抑揚があることも聞き取りやすさの要因の1つでしょう。例えばSarahは“performing at stand-up comedy clubs, ↗ going for hikes ↘”のように、複数の例を挙げるときに並列関係がわかるように、語尾の上げ下げを意識して発音しています。
